1. Qualitative Information on Quarterly Financial Results

(1) Explanation of Operating Results

During the three months ended June 30, 2025 (April to June 2025), city gas sales volume increased by 5.1% in total compared to the previous corresponding period, as a result of an increase in residential use sales volume mainly due to increased demand for heating and hot water resulting from low temperatures in early spring, and an increase in business use sales volume mainly due to air conditioning demand. Gas sales were ¥24,171 million, a 6.0% increase compared to the previous corresponding period, due to an increase in sales volume, despite lower unit selling prices under the fuel cost adjustment system. Electricity sales were ¥6,288 million, a 4.2% decrease compared to the previous corresponding period, mainly due to a decrease in capacity market income, despite an increase in sales volume to low-voltage residential customers. As a result, consolidated net sales totaled ¥38,296 million, a 4.8% increase compared to the previous corresponding period.

Ordinary profit was ¥5,984 million, a 16.7% increase compared to the previous corresponding period, mainly due to an increase in gas sales volume, despite an increase in strategic expenses in the DX field, etc. Profit attributable to owners of parent was ¥4,303 million, a 17.2% increase compared to the previous corresponding period.

The consolidated results of our group are subject to seasonal fluctuation factors in that a large amount of sales are recorded from winter to early spring due to the high demand for gas and LPG sales and other energy-related products.

(2) Explanation of Financial Position

As of June 30, 2025, total assets decreased by ¥14,805 million year on year to ¥180,625 million. Net assets increased by ¥3,825 million year on year to ¥92,312 million.

As a result, the equity ratio increased from 44.1% at the end of the previous fiscal year to 49.9%.

(3) Explanation of Consolidated Financial Results Forecast and Other Forward-looking Information

Full-year forecasts have not been revised from those announced at the time of the release of financial results for the fiscal year ended March 31, 2025 (April 28, 2025), as progress in all segments toward the full-year forecasts has been mostly as planned.
